grounding

An invitation to think
and share examples of
practice.

What might this norm
look or sound like for
you?

Calling-In to Growth Community Agreements

by Dr. Loretta J. Ross

Permission to show up imperfectly - This is a judgment-free zone and non-performative space. We respect the stories and experiences of all people here.

Horizontal Engagement - Everyone has the opportunity to be both teacher and learner. Feel free to share or ask a question to the group and respond to one another as it relates to the topics.

Step-up & Step-down - Be aware of the energy you bring, how much space you take, and how much space you share in the group.

Zoom In & Zoom Out - Our personal experiences are inextricably connected to larger social and political structures. We ask that you share and listen through the lens of your personal experience and the human rights movement.

@joeljrLLABAN

What might it look or sound like for you?

GUIDING STATEMENTS

DIVERSITY COLLABORATIVE MEMBER MEETING

Our Mission

The Diversity Collaborative (DC) is committed to creating and sustaining a more diverse, inclusive, equitable, and just international school community through our focus on leadership.

Our Vision

We recognize that diversity without equity, inclusion, and justice is insufficient and can perpetuate ongoing harm.

Therefore, we strive not only to recognize and redistribute power, but also to eradicate the systems and structures in place that cause and have caused injustice, inequity and exclusion. We aspire to see the leadership of international schools reflect the global majority.

LD

GUIDING STATEMENTS

DIVERSITY COLLABORATIVE MEMBER MEETING

Our Commitments

To realize our commitment to diversity, equity, inclusion, and justice, the Diversity Collaborative wholeheartedly challenges all leaders, international schools and associated organizations to address the absence of diverse leadership in formal leadership positions.

Concurrently, we acknowledge that anyone in a school can demonstrate leadership by serving as an agent of change.

The Diversity Collaborative (DC) conducts research on the leadership pipeline and recruitment practices, provides leadership development, and advocates for international school communities to (1) critically reflect on diversity or the lack thereof, (2) develop equity-minded stakeholders, (3) promote inclusive environments, and (4) serve as social justice activists.
